About the National Resource Center

The Health Resources and Services Administration's (HRSA) National Resource Center (NRC) for Training and Technical Assistance (TTA) advances health center operational excellence through the development, coordination, and dissemination of training and technical assistance available to health centers nationwide.

Established in July 2017 by the National Association for Community Health Centers (NACHC), the NRC serves as the vehicle through which HRSA-funded National Training and Technical Assistance Partners (NTTAPs) collaborate and coordinate activities to support health centers.

The NRC has four overarching goals:

1. Improve access to quality health services
2. Foster a health care workforce able to address current and emerging needs
3. Achieve health equity and enhance population health
4. Optimize NTTAP operations, strengthen collaboration, and demonstrate value.

NTTAPs provide TTA to health centers on a wide and a range of issues, often in partnership with Primary Care Associations and Health Center Controlled Networks, including:

- Board Governance
- Capital Development and Growth
- Clinical Workforce Development
- Health Information Technology and Data
- Health Center Finance and Operations
- Health Workforce Recruitment and Retention
- Intimate Partner Violence Prevention
- Medical-Legal Partnerships
- Oral Health Care
- Social Determinants of Health (SDOH)

HEALTH CENTER RESOURCE CLEARINGHOUSE

The Health Center Resource Clearinghouse—www.healthcenterinfo.org—is an online resource repository of training and technical assistance materials for health centers. It contains evidence-based materials submitted by NTTAPs and others, organized by operational topic areas. The NTTAP Organizational Directory, as well as links to all Primary Care Associations (PCA's) and Health Center Controlled Networks (HCCNs), are included in on the Clearinghouse.

This publication is supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) as part of an award totaling \$6,625,000 with zero percentage financed with non-governmental sources. The contents are those of the author(s) and do not necessarily represent the official views of, nor an endorsement, by HRSA, HHS, or the U.S. Government. For more information, please visit HRSA.gov.

ASSOCIATION OF ASIAN PACIFIC COMMUNITY HEALTH ORGANIZATIONS (AAPCHO)

Association of Asian Pacific Community Health Organizations (AAPCHO) is a national organization representing health centers and community-based organizations (CBOs) serving Asian Americans, Native Hawaiians and Pacific Islanders (AA&NHPI). Our mission is dedicated to promoting advocacy, collaboration, and leadership that improves the health status and access of AA&NHPIs within the United States, its territories, and freely associated states, primarily through our member health centers.

Key Topics

- 🖥️ Disaggregated race/ethnicity data collection
- 🌐 Social determinants of health data collection
- 🌍 Culturally and linguistically appropriate services
- ⚙️ Enabling services data collection

ASSOCIATION OF CLINICIANS FOR THE UNDERSERVED (ACU)'S STAR CENTER

The Association of Clinicians for the Underserved (ACU) is a national nonprofit focused on the recruitment and retention of clinicians into all types of facilities in underserved communities. ACU works toward this mission through a combination of advocacy, resource development, training, and clinician support. The organization's main policy and advocacy activity is centered around strengthening and expanding federal investments in the National Health Service Corps. ACU also provides research, resources, and training for clinicians on clinical topics key to

providing quality healthcare to an underserved population. ACU's NTTAP funding supports the Solutions, Training, and Assistance for Recruitment and Retention (STAR²) Center. The STAR² Center provides free resources, training, and technical assistance to health centers and lookalikes on a variety of topics related to clinician recruitment and retention. All NTTAP services are provided at no charge and can be identified by the STAR² Center logo.

COMMUNITY HEALTH CENTER, INC. (CHC, INC.)

Primary care has been at the heart of Community Health Center, Inc.'s (CHCI) mission since its founding in 1972. CHCI is a private non-profit agency providing primary care and social services to all, particularly to those who cannot gain access to such services elsewhere. We are defining how a full spectrum of healthcare services – including both physical and mental health – can be delivered where they are needed most. CHCI is an affiliate of Moses/Weitzman Health System, which was established to support exponential growth and innovation. The Community Health Center, Inc. and Weitzman Institute, CHCI's research and development arm, provides education, information, and training to interested health centers through the HRSA-funded NTTAP on Clinical Workforce Development. The Weitzman Team offers training in a variety of formats to implement a practice transformation plan, including learning collaborative, activity session, webinars, and publications.

Key Topics

- Research and innovation
- Clinical workforce development
- High performance model of team-based care
- Quality improvement education and clinical microsystems
- HIV Prevention
- Advancing Health Equity
- Preparedness for Emergencies and Environmental Impacts on Health

Key NTTAP-Funded Services

- > **Series of National Webinars**
- > Online learning collaboratives opportunities with free access to tools and resources related to transforming teams, HIV Prevention, and training the next generation
- > Publications
- > Virtual or in-person PCA trainings

CORPORATION FOR SUPPORTIVE HOUSING (CSH)

CSH's mission is to advance solutions that use housing and services as a platform to improve the lives of the most vulnerable people, maximize public and private resources, and build healthy communities. CSH as a technical assistance provider through the Health Resources and Services Administration's (HRSA), provides practical and entrepreneurial strategies for health centers to improve health care access, housing stability, and

outcomes for patients experiencing homelessness. CSH is an industry leader with national influence and deep connections in local communities. We are headquartered in New York City with local staff in more than 20 locations around the country.

Key Topics

 Foster and expand health center collaboration with other health and housing stakeholders

 Improve healthcare outcomes for frequent users of crisis systems, have housing instability, and lack a connection to primary and preventive care services

 Build health and housing partnerships to address social determinants of health

 Share emerging care coordination and partnership strategies to address health needs of the most challenging patients

Key NTTAP-Funded Services

HEALTH INFORMATION TECHNOLOGY, EVALUATION, AND QUALITY (HITEQ) CENTER

The HITEQ Center is a HRSA-funded National Training and Technical Assistance Partner (NTTAPs) that collaborates with HRSA partners including Health Center Controlled Networks, Primary Care Associations and other NTTAPs to engage health centers in the optimization of health IT to address key health center needs through:

- > A **national website** with health center-focused resources, toolkits, training, and a calendar or related events.
- > **Learning collaboratives, remote trainings, and on-demand technical assistance** on key content areas.

Key Topics

-  Cybersecurity (data security, privacy, etc.)
-  Digital health tools (electronic patient engagement, remote patient monitoring, patient portal, mHealth)
-  Priority topics: Health IT for HIV prevention and treatment, Health IT and data from emergency preparedness and health IT, Health IT and/or data for health equity
-  Value-based care (population health, quality improvement, and risk)
-  Interoperability
-  SDoH (health IT-supported social needs screening and response)

Key NTTAP-Funded Services

- > **HITEQ Knowledgebase:** accessible Health IT resource portal that includes curated tools, trainings, resource sets and event recordings
- > **Technical Assistance:** Learning collaboratives and experts to work with health center networks experiencing specific Health IT challenges
- > **Training:** Custom workshops, monthly HITEQ Highlights webinar

MHP SALUD

mhpsalud.org

MHP Salud has been dedicated to strengthening underserved communities by improving access to health care and social services for the past 40 years. Through our mission, we serve communities by embracing the strengths and experiences of individuals and families, engaging them to achieve health and well-being. To ensure services are culturally and linguistically relevant, MHP Salud employs Community Health Workers to lead outreach, education, and case management services within their communities. The organization also offers core competency training for Community Health Workers and supervisors and support to organizations across the U.S. on developing, evaluating, and sustaining their own CHW programs.

Key Topics

- ✓ Implementation of CHW programs in hard-to-reach populations
- 📈 Evaluation and outcomes for CHW programs, especially related to CHW-collected data
- 📖 Training and professional development for CHWs and supervisors/managers
- 📊 Sustainability of CHW programs and workforce
- 📚 Workforce development for CHWs
- 🍏 Health needs and strategies for supporting Migrant and Seasonal Agricultural Workers

Key NTTAP-Funded Services

MIGRANT CLINICIANS NETWORK (MCN)

Migrant Clinicians Network is a 501(c)3 nonprofit organization that creates practical solutions at the intersection of poverty, migration, and health. We provide bridge case management, support, technical assistance, and professional development to clinicians in Federally Qualified Health Centers and other health care delivery sites with the ultimate purpose of providing quality health care that increases access and reduces disparities for migrant farmworkers and other mobile underserved populations. Our work is

overseen by a board of directors comprised of frontline clinicians, researchers, policy makers, and academics with experience in and commitment to migrant health. MCN engages in research, develops appropriate resources, advocates for migrants and clinicians, engages outside partners, and runs programs that support clinical care on the frontline of migrant health.

Key Topics

NATIONAL ASSOCIATION OF COMMUNITY HEALTH CENTERS (NACHC)

The National Association of Community Health Centers (NACHC)

was founded in 1971 to “promote efficient, high quality,

comprehensive health care that is accessible, culturally and

linguistically competent, community directed, and patient centered

for all.” NACHC represents community health centers across the country. Community Health Centers serve as the primary medical home for 30 million people at over 14,000 sites across America.

NATIONAL CENTER FOR EQUITABLE CARE FOR ELDERLY (NCECE)

Established in 2017, the National Center for Equitable Care for Elders (NCECE) is a program of the Harvard School of Dental Medicine, located in Boston, MA. NCECE provides innovative and culturally competent models of care, interprofessional training and educational resources, and technical assistance to health care professionals in community health centers who provide care to the growing population of older adults. The Center is overseen and

administered by an experienced multi-disciplinary team made up of geriatricians, dental geriatricians, behavioral experts, social workers, endocrinologists, nurse practitioners, and community health experts who seek to advance the discussion on older adult needs and emerging issues in our nation's health centers.

Key Topics

-  Health Equity for older adults
-  Improving access to health care
-  Support for family caregivers
-  Effective management of chronic conditions
-  Strengthening community partnerships and social connections for older adults

NATIONAL CENTER FOR HEALTH IN PUBLIC HOUSING (NCHPH)

National Center for Health in Public Housing

NCHPH provides training and technical assistance to strengthen the capacity of federally funded health centers to increase access to health care, eliminate health disparities, and enhance health care delivery for the millions of residents of public and assisted housing.

The goal is to increase the capacity and improve the performance of HRSA supported health center programs and other safety net providers in meeting the specialized health care needs of the public housing residents. NCHPH professional divisions: Training and Technical Assistance, Clinical and Quality Assurance and Research, Policy, and Health Promotion; consist of professionals with a common area of interest within the field of public health and that enrich our ability to conduct training and technical assistance activities for Health Center Programs serving public housing residents.

Key Topics

-  Health and housing partnerships
-  Effective tobacco control measures
-  Community collaborations
-  Behavioral health and substance use disorders
-  Current and emerging health issues, e.g., diabetes, emergency preparedness, environmental health, climate change, COVID-19, immunization, maternal and child health
-  Social determinants of health
-  Health literacy

NATIONAL HEALTH CARE FOR THE HOMELESS COUNCIL (NHCHC)

Grounded in human rights and social justice, the National Health Care for the Homeless Council mission is to build an equitable, high-quality health care system through training, research, and advocacy in the movement to end homelessness. One of the oldest NTTAPs, the Council has provided training and technical assistance to health centers and those who serve people experiencing homelessness and poverty since 1986. Everything we do is guided and advanced by an inclusive community of people with lived experience of homelessness, administrators, clinicians, respite providers, researchers, academics, advocates, and

policymakers, working together in solidarity. This community generously shares their time and expertise to support others in the work, and the Council specializes in facilitating these connections as well as meeting technical assistance and training requests utilizing practical resources grounded in direct services for people without homes.

Key Topics

NATIONAL LGBTQIA+ HEALTH EDUCATION CENTER

NATIONAL LGBTQIA+ HEALTH
EDUCATION CENTER

A PROGRAM OF
THE FENWAY INSTITUTE

The **National LGBTQIA+ Health Education Center** provides educational programming and consultation for health care organizations throughout the nation and the world with the goal of eliminating health disparities among lesbian, gay, bisexual, transgender, queer, intersex, asexual, and all sexual and gender minority (LGBTQIA+) people. We are a multi-disciplinary team of clinicians, educators, and public health professionals with expertise in LGBTQIA+ health research and care. The Education Center is a part of The Fenway Institute, Fenway Health, based in Boston, MA and we work with a national network of faculty, advisors, and collaborators representing medical and public health universities, community health centers, and leading government and non-profit organizations.

Key Topics

-  Achieving health equity for LGBTQIA+ people— concepts, terminology, stigmas and disparities
-  Transgender health
-  LGBTQIA+ youth and LGBTQIA+ elders

-  Collecting sexual orientation and gender identity data
-  Behavioral health integration and trauma informed care

Key NTTAP-Funded Services

- > Online Training: We offer online training covering many LGBTQIA+ health topics
- > Training and Technical Assistance: Individualized technical assistance focusing on helping organizations assess their readiness for change, train their staff in core LGBTQIA+ concepts, and operationalize strategies for creating welcoming and inclusive environments for their LGBTQIA+ patients
- > Publications: briefs, journal articles, toolkits, and a textbook to support the improvement of LGBTQIA+ health through clinical and organizational change. Most of our publications are available for free and can be accessed on our website.

Key NTTAP-Funded Resources

- > **Access our materials** in the Clearinghouse
- > **Toolkit: Telehealth and LGBTQIA+ Communities**
- > **Toolkit: Gender-Affirming Pediatric Care**

NATIONAL NETWORK FOR ORAL HEALTH ACCESS (NNOHA)

National Network for Oral Health Access (NNOHA) is a nationwide membership association that exists to promote access to oral health care for underserved populations by encouraging community health centers (CHC) to start and maintain dental programs and to provide training, technical assistance and networking for the professionals who

work in the safety net. Members include dentists, dental hygienists, other oral health professionals, community health center employees, primary care associations, medical professionals, and others interested in the NNOHA mission.

Key Topics

-  Building and expanding oral health programs in CHCs
-  Enhance and promote equitable oral health care
-  Developing oral health quality measures and training delivery models through teledentistry, innovative dental team members, and interprofessional collaborative practice
- CHC staff to collect and interpret quality improvement measures
-  Provide oral health content development for training and technical assistance for those working with vulnerable populations and trauma informed care
-  Encouraging interprofessional collaboration between medical, oral health, and behavioral health professionals

Key NTTAP-Funded Services

- > Annual conference, which includes training sessions
- > National learning collaboratives focused on quality dashboard measures, HRSA UDS Sealant Measure, medical and dental integration, behavioral health and oral health integration, and teledentistry
- > **National webinars**
- > Presentations at other regional and national conferences
- > User groups with CHC customers of various electronic dental records to maximize understanding of collection of quality data
- > Publications including promising practices and user's guides

Key NTTAP-Funded Resources

- > **Access our materials** in the Clearinghouse
- > Fact sheets on HRSA UDS measures for oral health
- > Fact sheets on preparing for value based payments for CHC oral health programs
- > Promising practices from CHCs around the country based on their successful programs in integrated care and increased access
- > Bi-weekly newsletter: NNOHA News
- > User's guides and other publications on emerging trends such as teledentistry, optimizing the dental workforce, and more

NATIONAL NURSE-LED CARE CONSORTIUM (NNCC)

The National Nurse-Led Care Consortium (NNCC) is a nonprofit public health organization working to strengthen community health through quality, compassionate, and collaborative nurse-led care.

NNCC's mission is to advance nurse-led healthcare through policy, consultation, and programs to reduce health disparities and meet people's

primary care and wellness needs. NNCC has a variety of national and local public health nursing programs that help us achieve this goal.

Key Topics

- Nurse-led Care Models
- Residents of Public Housing
- Care Team Models
- Data Governance
- Patient Experience
- Emergency Preparedness

Key NTTAP-Funded Services

- > In-person and virtual trainings related to care team formation, optimization and care coordination
- > Online learning opportunities including webinars, facilitated group discussions, and ongoing virtual learning collaboratives
- > Publications
- > Toolkits
- > One to One Technical Assistance: Email NTTAPteam@phmc.org with requests for training and technical assistance
